# FOCUS AREAS AT A GLANCE

**FOCUS AREA**  
**ENERGY**

**FOCUS AREA**  
**INFRASTRUCTURE**

**FOCUS AREA**  
**ENVIRONMENT**

**FOCUS AREA**  
**MATERIALS**

**FOCUS AREA**  
**ANALYTICAL SCIENCES**

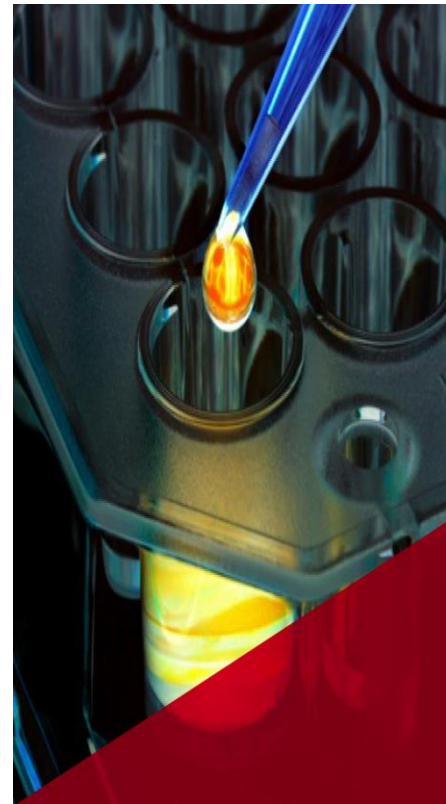

FOCUS AREA

## ANALYTICAL SCIENCES

### Activities

- Chemical composition and trace analysis
- Surface and interface analysis
- Non-destructive testing and spectroscopy
- Structure analysis and materialography
- Sensor technology
- Quality assurance and data science

FOCUS AREA  
**ENVIRONMENT**

## Activities

- Elucidation of the behaviour of materials and products in the environment
- Environmental pollutants
- Resource recovery and material recycling
